MOTION TO JOIN ADDITIONAL PARTY DEFENDANT

The United States of America (“United States”) hereby respectfully requests the Court to join as an additional party defendant the entity named below and order the party to answer the United States’ Complaint in this action as required in any civil action in the United States District Court or suffer default judgment against the party. In support of this motion, the United States asserts:

1. The entity listed below is diverting and using or may claim a right to divert and use surface or underground waters within the Zuni River stream system in New Mexico:

Subfile No.	Defendant
ZRB-3-0005 ¹	PWB, LLC 2425 JEFFERSON ST. NE ALBUQUERQUE, NM 87110

The water uses, or claims to the right to use water, of this entity are subject to the laws of the State of New Mexico and the United States. This Court has exclusive jurisdiction to adjudicate all claims to the right to divert, store, or use public waters of the Zuni River stream system in New Mexico.

2. The entity listed above may be diverting and using water associated with the subfile number listed, or may otherwise be using or diverting surface or underground waters within the Zuni River stream system.

3. PWB, LLC is being joined at this time as a result of updated ownership information provided to the United States during the consultation process. The defendants previously associated with the referenced subfile, Jack G. Balok and Patricia C. Balok, continue to be involved in a different subfile, for which a consent order has been approved. Accordingly, the present motion is not styled as a motion to substitute.

4. For the benefit of other parties, and by way of explanation, the United States asserts that motions to add additional defendants, dismiss defendants, correct defendants' names, and take other corrective action, are parts of an on-going process made necessary by the hydrographic survey, defendants' responses, and other kinds of new information received during the course of this adjudication. The United States advances such motions primarily for the
